Drones, simulators and ranges for the Indian Army

Army units need to watch ground they cannot reach, supply posts that roads do not serve, and train soldiers without wasting ammunition or range time. Star INXS designs and builds drones, training simulators, pop-up targets and firing ranges in India for these jobs. Star INXS customers include the Indian Army, Indian Navy, Indian Air Force, CRPF and BSF.

IN SHORT

- Star INXS Solutions Pvt Ltd designs and builds surveillance drones, cargo drones, training simulators, pop-up targets and firing ranges in India for Army units.
- For mountain posts the Hybrid VTOL launches at 4,500-5,000 m above sea level and flies 60-120+ minutes at full payload, and the Electric X8 carries 80-120 kg of supplies up to 25 km.
- For training, DroneSim teaches drone pilots on real RadioMaster transmitters, and TACTERRA turns GIS data for a 50 x 50 km sector into a walkable digital twin in under four hours.
- Army buyers can purchase through GeM, tenders, defence portals or direct orders, and a budgetary quote is sent within one business day.

SYSTEMS THAT FIT

JOB	SYSTEM	KEY PUBLISHED FIGURE
Surveillance from mountain posts	Hybrid VTOL	Launch at 4,500-5,000 m ASL; 60-120+ min at full payload; 5-30 km link
Close checks around posts and convoys	MQ-650 MKI	40 min, 5 km range, works above 5,000 m
Reconnaissance in contested areas and at night	MQ-JR	AES-256 link, night-vision camera, 35-40 min, 5-7 km
Round-the-clock watch over a camp or base	Tethered Surveillance UAV	18-24 h on ground power; tether of 100 m or more
Resupply of forward posts	Electric X8	80-120 kg payload, 25 km range, hot-swappable batteries
Drone pilot training	DroneSim	Three packages: Open World, Training Stages, SkyWar Combat

HOW TO BUY: GEM, TENDERS AND DIRECT ORDERS

1. **Send your requirement or RFP.** Use the enquiry form or write to the Tender & GeM desk. Say what…
